

Tym Agnes Peter

Tym is 31 years old! Celebrating with a shovel in hand. 😊

It takes strength, resources, and a lot of patience to build a house. The months go by, the construction advances, and another year of life is completed. We praise the Lord for Tym's life and are thankful for the health, love, and joy that He has given to this husband, father, and servant.

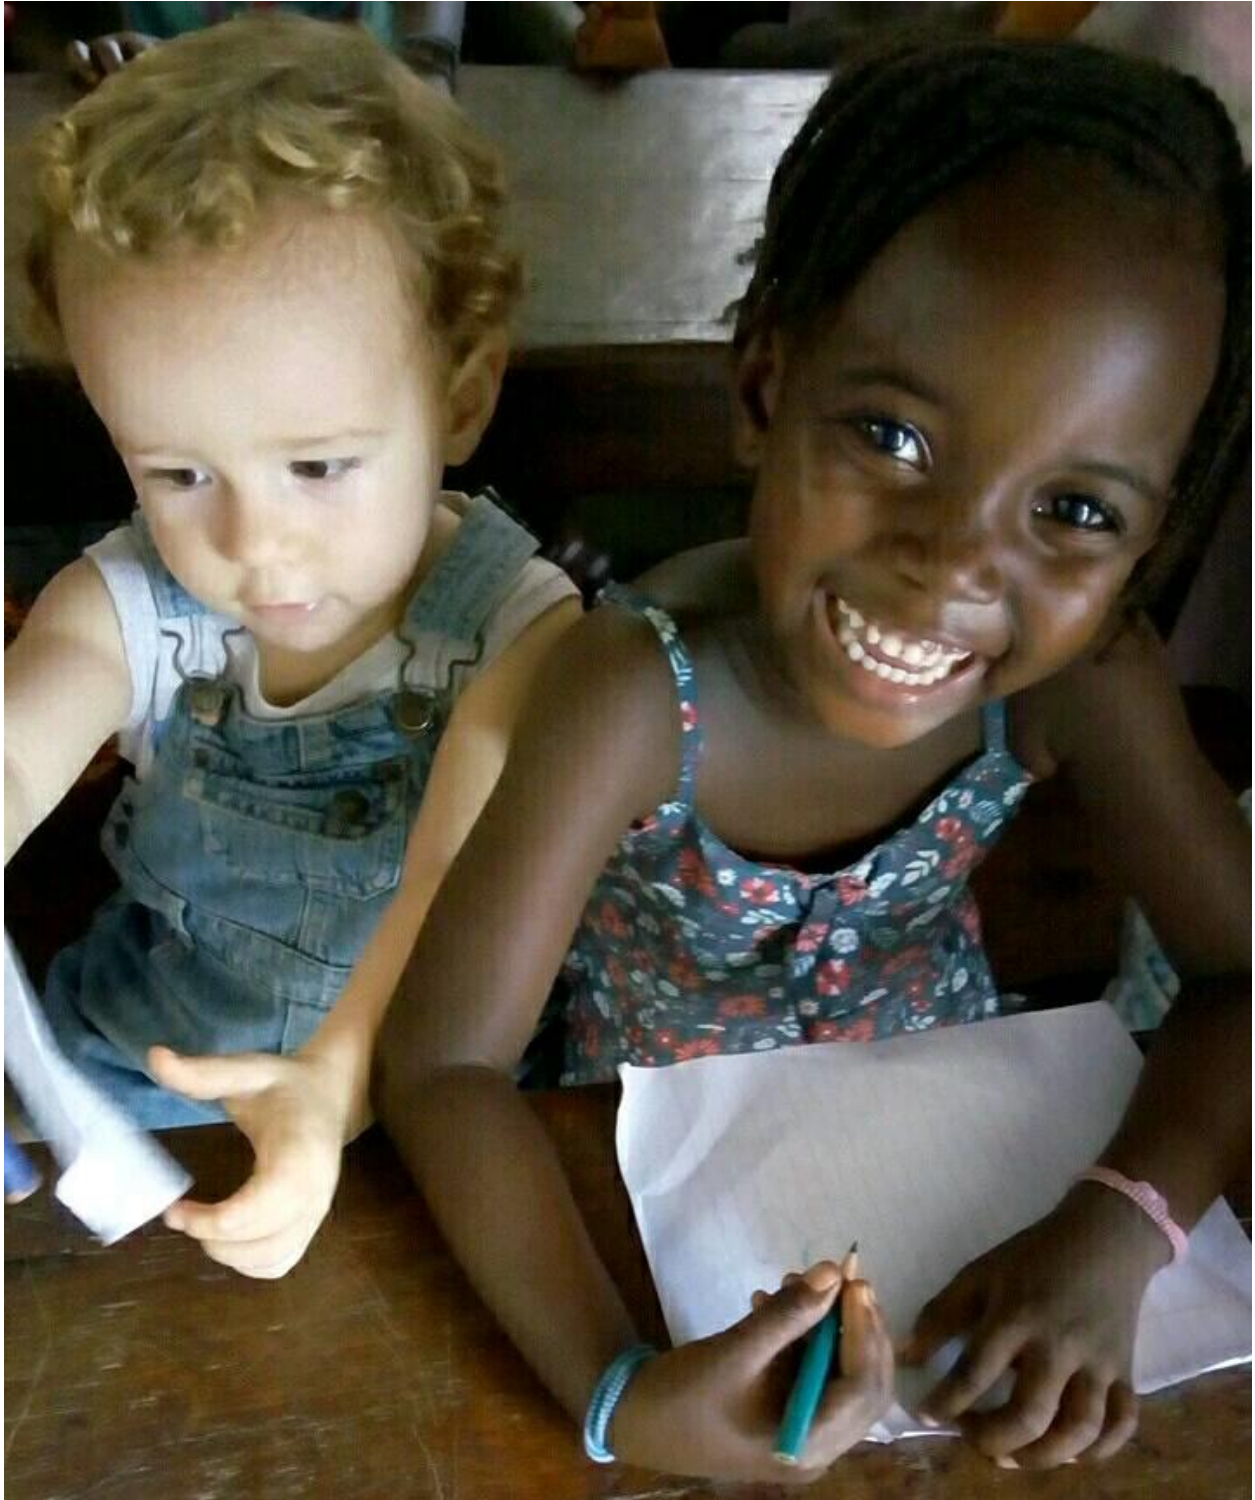

For those who have followed the construction of our home, they know that:

- ✓ we covered the house
- ✓ we built a water tower
- ✓ we put in a front door
- ✓ we have begun the ceiling
- ✓ we have started the stucco
- ✓ we have begun the electrical installation

Peter sometimes comes to visit where we're building and always has comments.

According to him the house is very beautiful 😊

Thanks to our good God who takes care of, sustains, and blesses!

Tym isn't the only one who reached 31! Peter completed 31 months and already speaks phrases in Kriol with friends, participates in Sunday school, and is growing! At home and at church we speak Portuguese. With friends he hears the languages spoken in the community. This year we didn't get malaria. The rains have already stopped and the time of highest risk of malaria has passed. Now we begin the six months of the dry season. Three of the months are a good window of opportunity with cooler weather to

receive visitors! From December to February, teams from Brazil are accustomed to take advantage of school vacation and a cooler climate to visit. In January a group from RS will visit. Pray with us that it will be a rich time. ☩ ☪

The school is our daily mission field. The children, youth, and teachers are already getting ready for final exams for the first trimester. Weekly they hear Bible stories and every day the kids have a time of prayer during the beginning of class. We're planting seeds in many hearts!

In December we will have the first meeting of Missionary Kids (Filhos de Missionários) in Guinea-Bissau. These meetings had a big impact on our lives while in Brazil, and we hope that it will be a blessing for missionary kids here.

Pray with us:

Praises: For health during rainy season; for the finished steps in construction of our house; for the first school trimester that is finishing; for a relaxing trip that we took with missionary colleagues in the last week of November.

Prayer Requests: For the construction of our house, for labor and resources that we're still lacking; for Peter's growth; for good relationships with our team; for our missionary colleagues who are in the home country to have a baby; we ask the Lord for a safe trip back here for Raquel, Tym's mom; that we would be Salt and Light in the midst of teachers, students, and the community; for end of the year programs at church (worship, retreat, prayer vigil); for the first meeting of Missionary Kids in Guinea-Bissau, and for us who will be part of the team that organizes the event.

October and November of 2018
