

Tym Agnes Peter

Here we are! A little hello from West Africa. The climate is especially pleasant and has brought memorable moments and visits to our family, project, school, church, and community!

The first special moment was on the 14th of December of 2018 when we completed five years of marriage.   We rejoice in Him who united us and who teaches us day by day to live together for Him.

The second special moment was the Missionary Kids Conference in Guinea-Bissau (December 20-22) with sixteen participants and seven teams. We served the teenagers and had time for study, community, and recreation based on the theme The Identity of a Third Culture Kid.

We celebrated the birth of Christ as well as the New Year together with family and with brothers in Christ. It was a time to share, be thankful, and to evaluate and plan the new year.

The schools were so thankful for the visit of fifteen people from Rio Grande do Sul (RS) who came in January to serve in different areas, including with a workshop for teachers and the distribution and organization of school materials and donated books. 📖

The team also led a conference for men and for women about the theme Unity of the Church. 🏠 It was very special having them here and had quite an impact!

We paused construction on our house during all the activities in January but have started back already in February. 🏠

Pray with us:

Praises:

- For Raquel's safe return (Tym's mom). She was with family in Brazil and shared about the project.
- For the Missionary Kids Conference that we organized together with other missionaries.
- For the end-of-the-year programs together with fellow Christians in Quebo, Djati, and Cruzamento.
- For the month-long visit with Tym's brother here with family.

- For the team of 25 Brazilians who came through the project and for the two communities serving and helping in areas of health and education.
- For the arrival of a group from a church in Rio Grande do Sul, Brazil that partners with the project.
- For the workshop for teachers and for the conference that the group organized.
- For the second trimester of school that has started.

Requests:

- For the construction of our house and the workers and resources we still need.
- For our family. For Peter's growth.
- For the relationships in our team.
- For our colleagues who are in their home country due to pregnancy (3 more weeks until birth).
- We ask the Lord for Fredy's (Tym's dad) trip to Brazil for health treatment and sharing about the ministry.
- That we would be Salt and Light in the midst of teachers, students, the children at the project and in the community.

December 2018 and January 2019
