

hope remembered

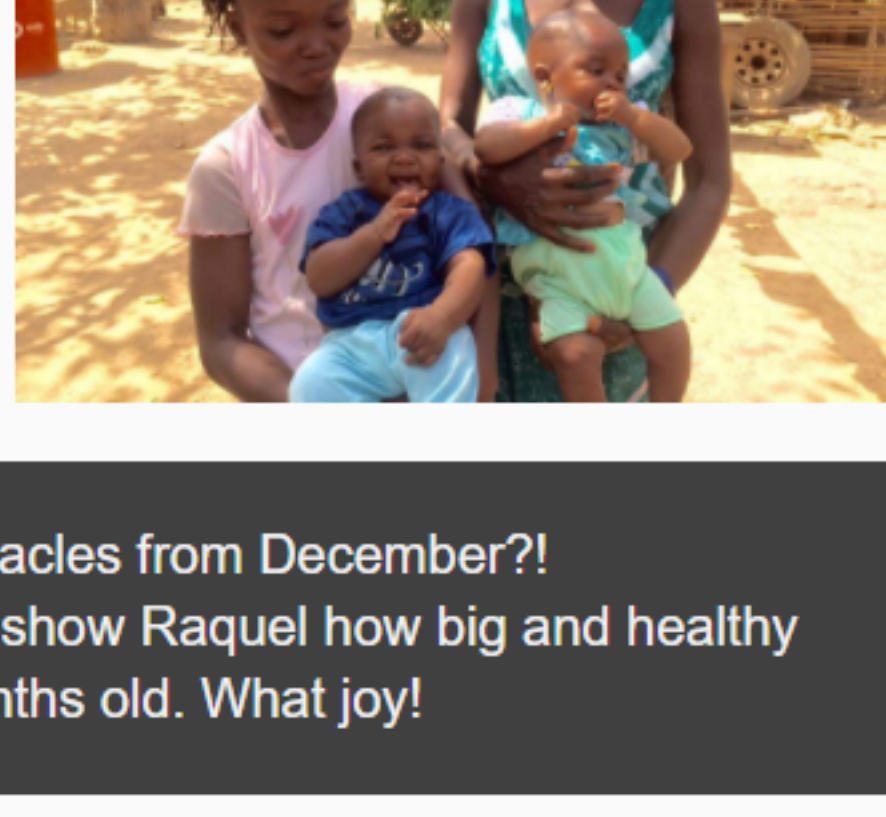

Guinea Bissau, West Africa

hoperemembered.org

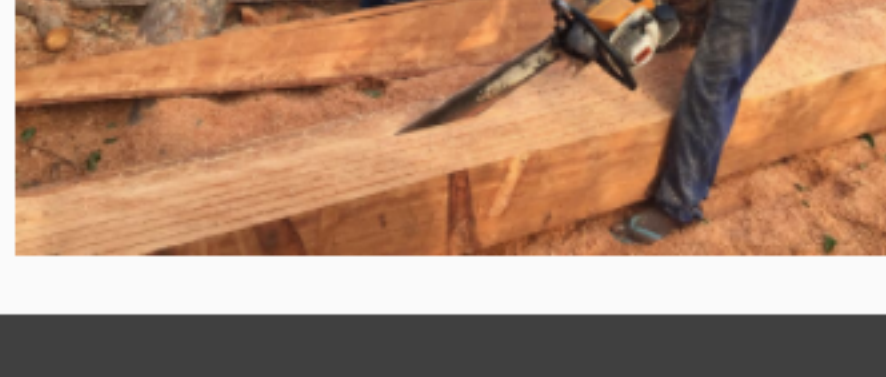

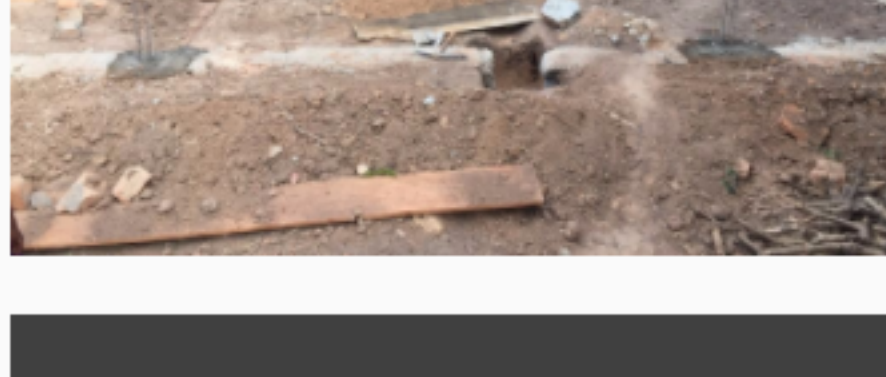

I will extol you, my God and King, and bless your name forever and ever. Every day I will bless you and praise your name forever and ever. Great is the LORD, and greatly to be praised, and his greatness is unsearchable. Psalm 145:1-3

Christmas blessings

Remember these sweet miracles from December?! Mom stopped by the medical clinic to show Raquel how big and healthy they are now at 5 months old. What joy!

Travis and Sarah have been hard at work on their new home in Quebo. We are so thankful for all of the men who have joined in the work to try and get the outer walls constructed before the rains come this month. The foundation is nearly complete, walls should start going up this week, and many thousands of bricks have been made and fired for the home. Two of Sarah's brothers were able to visit and help as well! Travis has a new appreciation for Home Depot and Lowe's after this experience. Thank you for fully funding their home fund to make this possible!

The Lord has provided the sweetest neighbors for Travis and Sarah. Segunda, Jibi, and Ebu love playing with our pets which have grown to include two dogs, a squirrel, and a cat.

Fredy has begun the process of reviewing yearly progress with the teachers at the schools he builds, funds, and manages. We are so thankful for his tireless efforts to provide a solid education to many rural students and hire many local teachers. These students are hearing the Gospel, seeing the Gospel lived out with love, and growing in skills and knowledge.

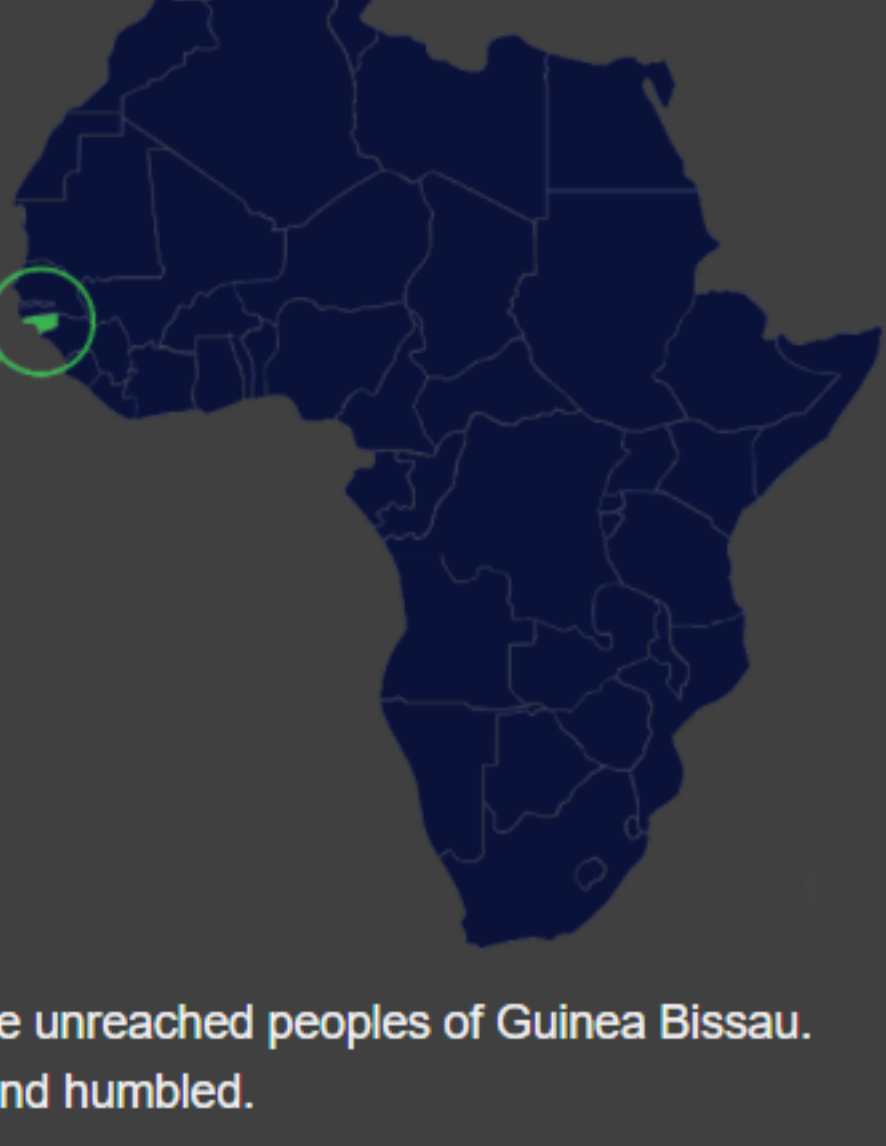

The rains are coming to Guinea Bissau, this month Lord willing. This means that many rural villagers, like this little guy, will lose access to medical care. Many villages become inaccessible during this season. Roads will soon flood, becoming rivers, and will remain impassible until the rains leave in October. Because of this our medical missionaries are headed out to these remote areas to leave a large stock of medications and supplies to help combat the effects of diseases brought on by the rainy season, especially malaria. Would you consider partnering with us to help fund this critical outreach?
