

Tym and Agnes

Flying in 3, 2, 1!
Stay tuned for each update!

We had a **very special visit** the beginning of this year! Tym's brother came to visit the family and introduce his future wife.

In January we had a commemorative Sunday service:
20 years of work by Tym's parents here in Quebo.

The two helpers with the mission, now married and with children, honored the couple with
a **traditional cloth of honor**.

Teachers of the school, friends and brothers in Christ were able **to testify to what the Lord has done** in these years and to thank them!

We spoke briefly in the previous **letter** about a **new** community that the began supporting at the beginning of the school year. Recently Samaritan's Purse Christmas shoeboxes were delivered to the children.

On a weekly basis, there **are meetings with these children to study** the Word through the biblical materials for children that they received that same day.

We welcomed to our home a **seminarian** of Setecec - Anapolis - Goiás **for the completion of his internship**. He arrived on December 27 and at the end of January he returned to Brazil. No malaria!

He worked at the mission **school** with classes in Religious Education and Biology. **He ministered in the** church services and helped with **programs in the more rural communities** as well as in the service commemorating the 20th anniversary of the Mission.

We were recently at the American embassy in Senegal to get our US visas. Thank you for that!

We should leave in April for the **United States**. It will be a time of meeting with the administration of Hope Remembered and visiting Churches and partners.

We also want to visit Agnes's grandfather, an American missionary in Brazil for more than 50 years, as well as to see others of her relatives.

And in **June we will continue**
arrival of the baby!

to Brazil for six months for the

Pray with us

Praises:

- For celebrating Christmas and the New Year with family members, missionary brothers and sisters, and the community.
- For the seminarian, a forest engineer, who finished out his internship here at the mission over forty days
- For 20 years of the mission in Quebo and the celebration in January
- For Agnes's good health and pregnancy (5 months)
- For the time with family and Tym's brother's visit
- That we were able to get our US visas

Requests:

- For all the changes, travels, resources, and preparation that come with the arrival of the baby
- That we can purchase our tickets
- For our time in the US and Brazil
- For the provision of a car and place to stay during the six months we will be in Brazil to have the baby.
